The bibliography is an essential resource for researchers, students, and anyone else interested in the health sciences of Sudan. It provides a comprehensive overview of the current state of knowledge on a wide range of topics, and can be used to identify key resources for further research.

## History of the Bibliography

The Bibliography of Biomedical Literature of Sudan was first published in 1982 by the National Council for Research (NCR) of Sudan. The NCR is the government agency responsible for coordinating and promoting scientific research in Sudan. The bibliography was compiled by a team of researchers from the NCR and the University of Khartoum.

The bibliography was initially published in print form, but has since been made available online. The online version of the bibliography is updated regularly, and now includes over 10,000 references.
