Print length : 481 pages

The MICCAI Society Series on Machine Learning and Medical Imaging provides a comprehensive overview of the latest advances in this rapidly evolving field. Edited by leading experts in the field, each volume in the series focuses on a specific topic, providing a detailed and up-to-date review of the state-of-the-art.

The series is essential reading for researchers, engineers, and clinicians who are interested in the latest developments in machine learning and medical imaging. It is also a valuable resource for students who are new to the field and are looking for a comprehensive to the subject.

### **Volume 1: Machine Learning for Medical Image Analysis**

The first volume in the MICCAI Society Series on Machine Learning and Medical Imaging focuses on machine learning for medical image analysis.

This volume provides a comprehensive overview of the latest advances in this field, including:

\* Image segmentation and registration \* Image classification and retrieval \* Image-guided therapy and computer-aided diagnosis \* Machine learning for medical image computing

This volume is edited by leading experts in the field, including:

\* Olivier Cuisenaire, University of Liège, Belgium \* Dimitris Metaxas, Rutgers University, USA \* Ayman El-Baz, Cairo University, Egypt \* Guang-Zhong Yang, Chinese Academy of Sciences, China

## **Volume 2: Machine Learning for Medical Image Computing**

The second volume in the MICCAI Society Series on Machine Learning and Medical Imaging focuses on machine learning for medical image computing. This volume provides a comprehensive overview of the latest advances in this field, including:

\* Medical image computing applications \* Machine learning for medical image analysis \* Image-guided therapy and computer-aided diagnosis \* Machine learning for medical image computing

This volume is edited by leading experts in the field, including:

\* Daniel Rueckert, Imperial College London, UK \* Guoyan Zheng, University of California, San Francisco, USA \* Qunfeng Zhang, Shenzhen University, China \* Xiaoying Tang, Chinese Academy of Sciences, China

The MICCAI Society Series on Machine Learning and Medical Imaging is a valuable resource for researchers, engineers, and clinicians who are interested in the latest developments in machine learning and medical imaging. It is also a valuable resource for students who are new to the field and are looking for a comprehensive to the subject.
