

# The Politics of Survival: Policy, Politics, Health and Medicine Series

The Politics of Survival is a book series that examines the intersection of politics, health, and medicine. The series explores the ways in which power relations, social institutions, and economic systems shape health outcomes and access to healthcare. The series also examines the role of health and medicine in shaping political and social change.

## Overview of the Series

The Politics of Survival series is divided into three main sections. The first section, "Policy," examines the ways in which government policies affect health and healthcare. The second section, "Politics," explores the role of political power in shaping health outcomes and access to healthcare. The third section, "Health and Medicine," examines the ways in which health and medicine are shaped by social and economic forces.
